

# Summer Quran Program - First Day Update

Assalamu Alaikum wa Rahmatullahi wa Barakatuh dear parents,

Alhamdulillah, today we successfully began our Summer Quran Program with 50+ students enrolled – May Allah bless our efforts and reward you all for supporting your children's Islamic education.

## What We Did Today:

- We assessed each student's Quranic level and understanding.
- Based on their age and level, we organized them into 6 learning groups.(boys & girls)
- Each group has a structured curriculum tailored to their needs.

## Curriculum Overview:

Each group will follow a set curriculum that includes:

- Quran Studies: Qaida, Tajweed, and Quran reading.
- Islamic Studies: Practical teachings and core knowledge like Fiqh, Aqidah, Seerah, Islamic History, Adab & Akhlaaq, Du'as, and Hadith.

## Our Teachers & Approach:

- Our teachers are trained and certified, and we are affiliated with MESBA.ORG Maktab Education Service Board of America.
- We follow a tested method for teaching Quran, which includes student progress tracking, by weekly tests, and final evaluations at the end of the program.

## Important Note for Parents:

To ensure the best learning experience:

- Please do not teach your children Quran separately (online or at home), as it may cause confusion due to different teaching methods.
- However, feel free to help with Islamic Studies, such as Du'as, Hadith, and Seerah – your support at home is always appreciated, but not required.

## Test/Exam:

- Students will be tested regularly after completing lessons.
- A final test will be held in the last week of the summer program.

Jazakumullahu Khayran for your continued support. We are excited for a fruitful summer of learning and growth, InshaAllah.

Please feel free to text me if you have any query/ questions.

Regards,  
Mufti Moaz Hussain  
Principal  
Ummul Qura Islamic School
